GLOCERT INTERNATIONAL having the team of Auditor, Lead Auditor and Technical Experts who can conduct a value-added Audit and contribute in the continual improvement of your organization. GLOCERT INTERNATIONAL can provide the audit and you are entitled for the certification of ISO 55001.

What is ISO 55001:2014 (AMS)?

ISO 55001 creates a framework for an asset management system that will help your business to proactively manage the lifecycle of your assets, from acquisition to decommission. This helps you to manage the risks and costs related to owning assets, in a structured, efficient manner that supports continual improvement and on-going value creation.

Benefits of the ISO 55001:2014 (AMS)?

The ISO 55001 helps you to:

- develop a reliability centred planned preventive maintenance system that will help manage risk over the life of an asset
- demonstrate to funders, insurers and other stakeholders that your organization has an independently audited management system in place to care for critical assets
- reduce operational costs by extending the life of key assets and prioritising effective preventive maintenance over costly repairs
- enable better planning for major capital expenditures, making your organization more flexible and better positioned to respond proactively when change occurs
- provide a framework for managing and monitoring the performance of suppliers and subcontractors
- create safer workspaces and reduce the risk of occupational injury by increasing machine and equipment reliability.
